

Induction, ceramic and gas hobs. Designed to impress

The Siemens hob range combines stunning design with innovative technology and ergonomic design.

Create a design statement in your kitchen to work in harmony with other Siemens Home appliances. With hob options including distinctive black glass, cooking sensors and Wi-Fi, there are a range of collections including induction, ceramic and gas to choose from.

The advanced technology available in our hobs ensures your cooking experience is as enjoyable as possible, with time-saving features that help you to quickly and effortlessly prepare dishes. With a wide range of styles, sizes and cooking types to suit your needs and kitchen design, we have a hob solution for you.
